

KliKlamp

The lightweight clamp made of magnesium

Light as a feather – tough as nails

Extremely lightweight, stable magnesium, fibre-glass reinforced plastics, and cold-drawn BESSEY quality steel: this optimum mixture is characteristic of the innovative high-tech KliKlamp lever clamp. That's why the smallest KliKlamp weighs just a tiny 260 g – simply ideal for assembly work or where several clamps are being used at once. The pressure is also built up easily and highly effectively: the VIBRAFIX ratchet mechanism lets you achieve a huge 1,200 N of clamping force quickly with just 2 fingers. You certainly will never have clamped as quickly, easily or as gently as this!

Your benefits at a glance:

- 1 Sturdy magnesium**
The surface-coated fixed and sliding arms, made from sturdy magnesium, are extremely light and strong.
- 2 VIBRAFIX stepped ratchet mechanism**
The multi-stage VIBRAFIX ratchet mechanism is easy to operate, vibration-resistant, particularly easy to control, and can be released quickly.
- 3 A secure hold**
The fixed arm with the crossed v-grooves holds round, pointed or angular components firmly in place. This is part of what makes the KliKlamp so versatile.
- 4 Ergonomically shaped clamping arm**
The ergonomically shaped clamping arm made from fibreglass-reinforced polyamide is breakproof and fits very snugly in the hand. That's quality of the highest calibre.

Lightweight clamps

KliKlamp KLI

N ^o	← a →	← b →	← x →	⚖	📦	VB0003
	mm	mm	mm	kg	qty.	
KLI12	120	80	20 x 5	0,26	6
