

The EU 100 is one of our lowest cost etch units. Variable voltage controls are operated manually. Ideal for small batch sizes. Complete with accessories such as electrolyte, marking head, and cable set, this system provides a fast, reliable, and low-cost entry into the electrolytic etching field.

### Features

- Non-corrosive electrolytes
- Non-smearing permanent marking
- No part deformation
- High-quality permanent marks
- Affordable

### Specifications

Input Voltage	115 or 230 V AC
Output Voltage	0 - 24 V (AC/DC)
Max Power	100 VA
Dimensions	155 x 200 x 150 mm
