

## Revolving Grips

### DIN 98

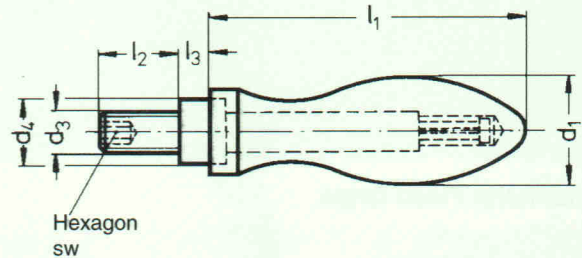

#### Grip from Aluminium resp. Plastic

**Type A:** Grip from Aluminium polished, spindle from steel, black oxide finished.

**Type K:** Grip from polyamide, black matt, spindle from steel, black oxide finished.

**Assembling Instructions:** Mount the bolt without the grip part. Then push the grip on the bolt by hand. Through light stroke with plastic hammer, the grip is connected with the bolt. Now the grip will revolve freely, but cannot be pulled back off the bolt by hand.
